Gentlemen

Enclosed for your review are two copies of the Tenth Quarterly Update to the Historical Release Report (HRR) for October 1, 1994 through December 31, 1994. This report is being submitted in accordance with the Interagency Agreement (IAG), Sections I.B.3 Notification and I.B.5 Historical Release Report (HRR). Please sign the HRR Quarterly Update Acceptance Form provided on page 2 of the update and return the signed form to the Department of Energy (DOE), Rocky Flats Field Office (RFFO). This was agreed upon in the March 31, 1994 meeting between DOE, the Environmental Protection Agency (EPA) and the Colorado Department of Public Health and Environment (CDPHE).

The Seventh, Eighth, and Ninth Quarterly Updates for the HRR were transmitted to your offices on June 15, 1994, August 23, 1994, and December 12, 1994, respectively. RFFO has not yet received the signed HRR Quarterly Update Acceptance Forms from either EPA or CDPHE to indicate acceptance or non-acceptance of the three updates.

CDPHE has verbally raised the issue of changing the Quarterly Updates to an annual update. According to the IAG, Section I.B.3, DOE is required to amend the HRR every three months for newly identified or suspected releases or threats of release from any or all of the sites. An amendment of the IAG is required in order for DOE to change the frequency of HRR reporting. In addition, DOE considers that only notifying EPA and CDPHE of the newly identified or suspected releases or threats of release once a year, may not provide timely identification of actions to be taken. DOE is prepared to discuss the issue further if EPA and CDPHE so desire.
